

Rabbit Finger Puppet Craft

These easy to make puppets are perfect for retelling the story “How Rabbit Got His Long Ears.” They can be made from empty cardboard tubes, googly eyes, pom poms, and paper. You can paint or cover the tube with paper and let them dry, cut them down and use what you have around the house for their faces. A cotton ball can be glued on for the tail. Once dry, you can begin practicing your storytelling with your puppet. If you make the shorter version of the puppet you can slide the tube up to give rabbit his tiny ears and then slide it down after Gluskabe helps rabbit by pulling on them!
