

Chipmunk Finger Puppet

Supplies Needed:

Toilet paper roll

or

Craft paint, or markers

Construction paper

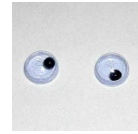

[This Photo](#)

Scissors

Glue

Googly eyes

(If you have them)

Start by painting or coloring your tube brown. Or you can wrap it in brown construction paper and glue it on.

Fold the top of the toilet paper roll to create the ears, try to make the fold as sharp as possible by pinching it with your fingers.

Now it is time to make his cute little face. Look at the two examples below. You can cut out pieces of construction paper and glue them on or paint the face directly on to your tube. Be creative and use the materials that you have handy.

To finish your puppet, cut a piece of brown construction paper to make the tail and arms. If you don't have construction paper, you can paint or color a white piece of paper. Don't forget to add the stripes!
