

# Nutty Squirrel Game

## Materials needed:

Photo Courtesy of <https://pestworldforkids.org>

3 egg carton cups

or small paper cups

Brown paint

Or Brown markers

Craft glue

Scissors

Brown construction paper or felt

Or paper bag

Googly eyes

Pom-poms

Acorn or nut

## Step #1

With brown paint or markers, color your egg carton cups or paper cups on the outside only.

## Step #2

Using the photo as a guide, cut out 3 faces, 6 ears, and three tails from your Brown construction paper or Brown paper bag. Try to make them all the same size. With your scissors, cut fringe on the outside edges of your tails.

## Step #3

Glue faces onto the cups, then glue or draw on eyes, and pom-pom noses. To make the game harder, try to make each squirrel identical. This will make it harder for someone to guess where the acorn is hidden. Glue your fringed tails on to the back of the cups.

## To Play the Game:

With other players watching, place the acorn on the table and cover it with one of the squirrels.

Begin sliding the squirrels around the table, weaving them in and out so that the players lose track of the squirrel who is hiding the acorn.

When you think you have them all confused, stop moving the squirrels around and have the player guess which squirrel is hiding the nut!
